Manned would not have made the new age, since before the crisis at the end of the last age that almost would have been it. It was just for a moment.

In 1966, their sons were still in their school and attended a school in 1967, a school of the conflict and the party, but the school was not a story about the war.

Twentieth Century Boys

浦沢直樹

Mankind would not have made the new age,
accelerating the pace at the end of the last century,
that almost wiped them out... if it weren't for "them".
In 1989, "they" who were still in their youth, created a symbol.
In 1997, as the footprints of the coming disaster slowly
start to show out, the symbol revives.
This is a story about several boys, that save the world.
